

Track your links with Linkd for better results.

With Linkd you can track clicks to links, revenue attribution, filter bots, A/B route traffic. You can also connect custom domain names, and password protect any page you wish with just one setting!

Get Started

Get access to a diverse set of analytics with Linkd

With Linkd you can view click counts, see where your traffic is coming from, and track what's happening with your links in one dashboard!

Explore Analytics

Conversion Tracking

Turn clicks into customers — track every signup, purchase, and action that happens after the click.

Spam & Bot Filtering

Keep your data clean and trustworthy by automatically filtering out bots, crawlers, and fraudulent clicks.

A/B Split Testing

Test two or more destinations against each other and let your data decide which one wins.

Realtime Event Webhooks

Get instant notifications the moment something happens. No polling, no delays, no guessing.

Use custom domains when you use Linkd

With Linkd you can view click counts, see where your traffic is coming from, and track what's happening with your links in one dashboard!
